00923017888875 All mobile numbers in India have the prefix **9, 8** or **7** (This includes pager services, but the use of pagers is on the decline). Each zone is allowed to have multiple private operators (earlier it was 2 private + BSNL/MTNL, subsequently it was changed to 3 private + BSNL/MTNL in GSM, now each zone has more than 10 operators including BSNL/MTNL. All mobile phone numbers are 10 digits long. The way to split the numbers is defined in the National Numbering Plan 2003 as XXXX-NNNNNN where XXXX is the Network operator, NNNNNN is the subscriber numbers.

A photograph of a two-lane road with a double yellow center line. A dead animal, possibly a raccoon or similar mammal, lies on the road in the center, between the yellow lines. In the background, a dark-colored car is driving away on the left, and a red car is parked on the right. The sky is overcast. The text "Not My Job" is superimposed in large, bold, black letters across the middle of the image.
