Rabi	Paddy	Jowar	Bajra	Mustard
Zaid	Mango	Vegetables (Small Quantity)	-	-

Donpal Village

Transect Walk

Observations

Gradient

- Flat with marginal undulations

Soil

- Presence of both black and red soils

Vegetation

- Paddy
- Thorny dry deciduous forest

Land use pattern

- Agriculture
- Residential and institutional
- Some lands are left fallow
- Forested
- Community properties
- Religious places
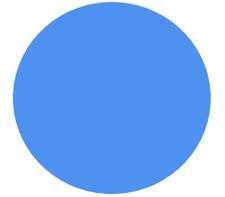

Observations

Problems
- Open drains
- Absence of pukka roads
- Water intensive paddy crop
- Lack of PHC

Opportunities
- Crop diversification
- Good water management
- Female literacy
- Welfare for SCs (Semi-pucca houses, land holdings, Dalit Bandhu scheme)
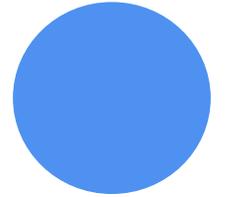

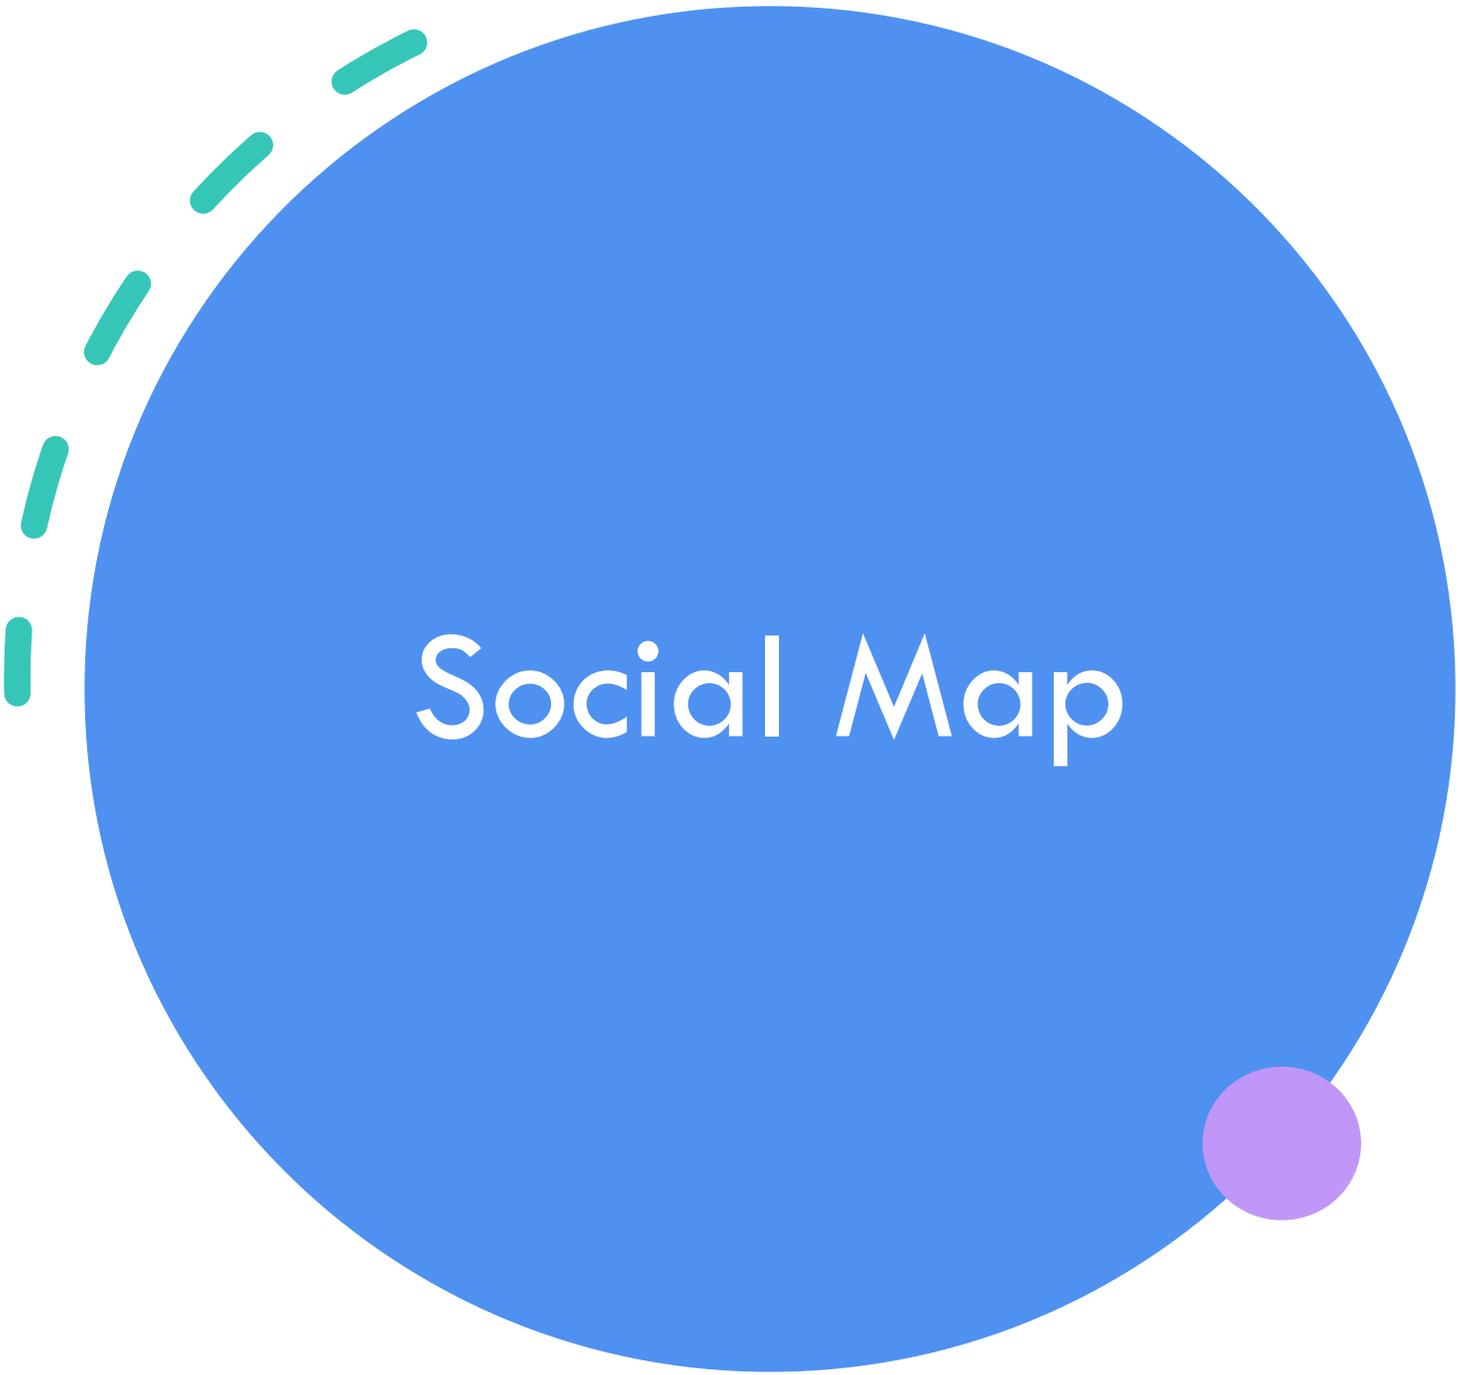

Social Map

Observations

- Agricultural Society

- Houses are separated based on the caste

- Separate caste specific temples are present

- Community resources are shared without any discrimination

- No visible communal fault lines

- Sex Ratio in higher caste is more favorable to women as compared to lower caste

- Literacy level is low especially female literacy

- Most families are land onwers

Resource Map

The resources located in the village are as follows:

Presentation Title

Upper Primary School

Students: 111
Teachers: 7

Observations & Suggestions

- Functioning well

- Mid-day meal quality is good

- Need for a computer lab and extra class room

- Female dropout after class 7 is high, need extra effort to send them to secondary school in Mandal HQ.

- Door to door Survey each year for ensuring 100% enrollement

Donpal Village
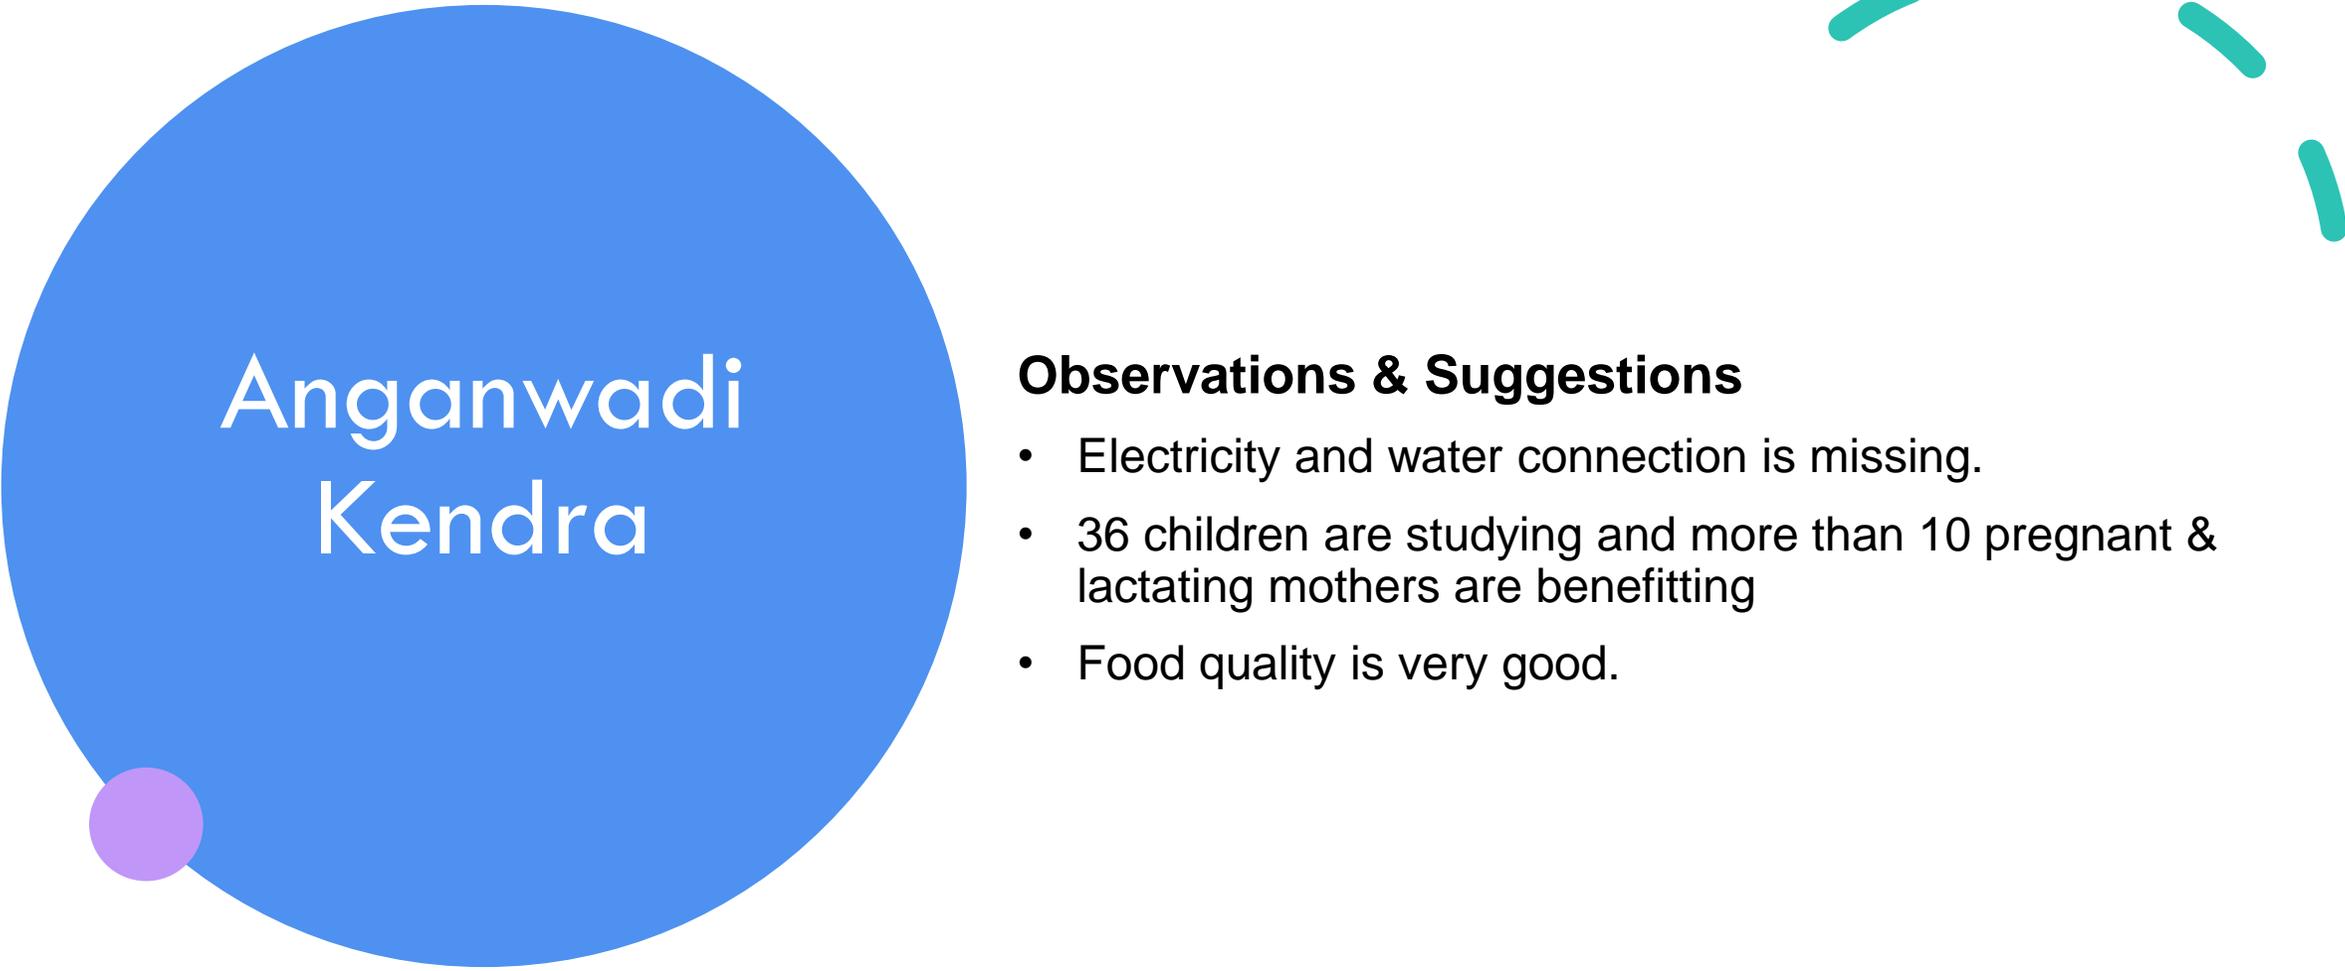

Anganwadi Kendra

Observations & Suggestions

- Electricity and water connection is missing.

- 36 children are studying and more than 10 pregnant & lactating mothers are benefitting

- Food quality is very good.

Donpal Village

Fair Price Shop

Observations & Suggestions

- Iris scan and fingerprint authentication is working

- Almost entire village is on the list of beneficiaries

- Need for a better storage facility

MGNREGA Infrastructures

Observations & Suggestions

- Crematorium, compost shed, park, nursery, community property resources, soak pits, Haritha Haram

- Farmers expressed need for – cc lining of irrigation channels, puccaa roads.

Panchayat office

Observations & Suggestions

Good facility for employees and public representatives to hold meetings and work

Rayatu Vedika

Observations & Suggestions

- Good initiative – one stop contact point for all farmers
- Crop suggestions, Rayatu Bhima, Rayatu Bandu
- 5000 acres in one clusters

Interactions with Villagers and Stakeholders
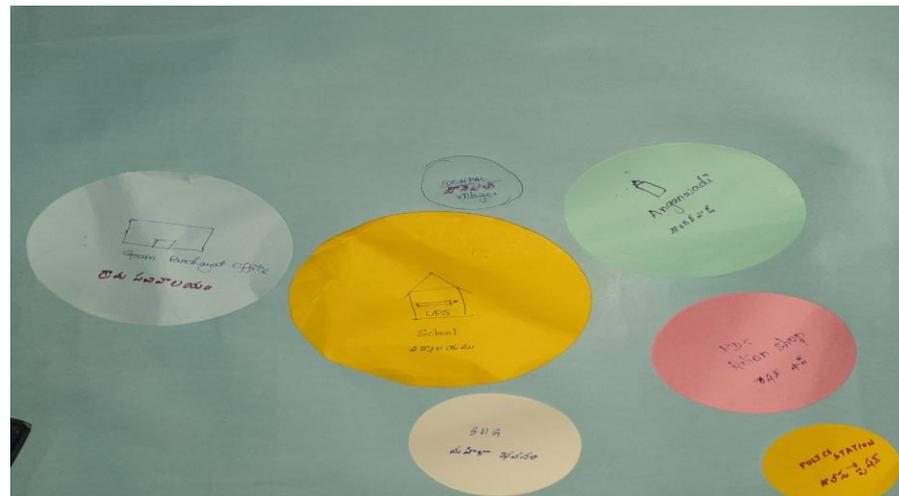

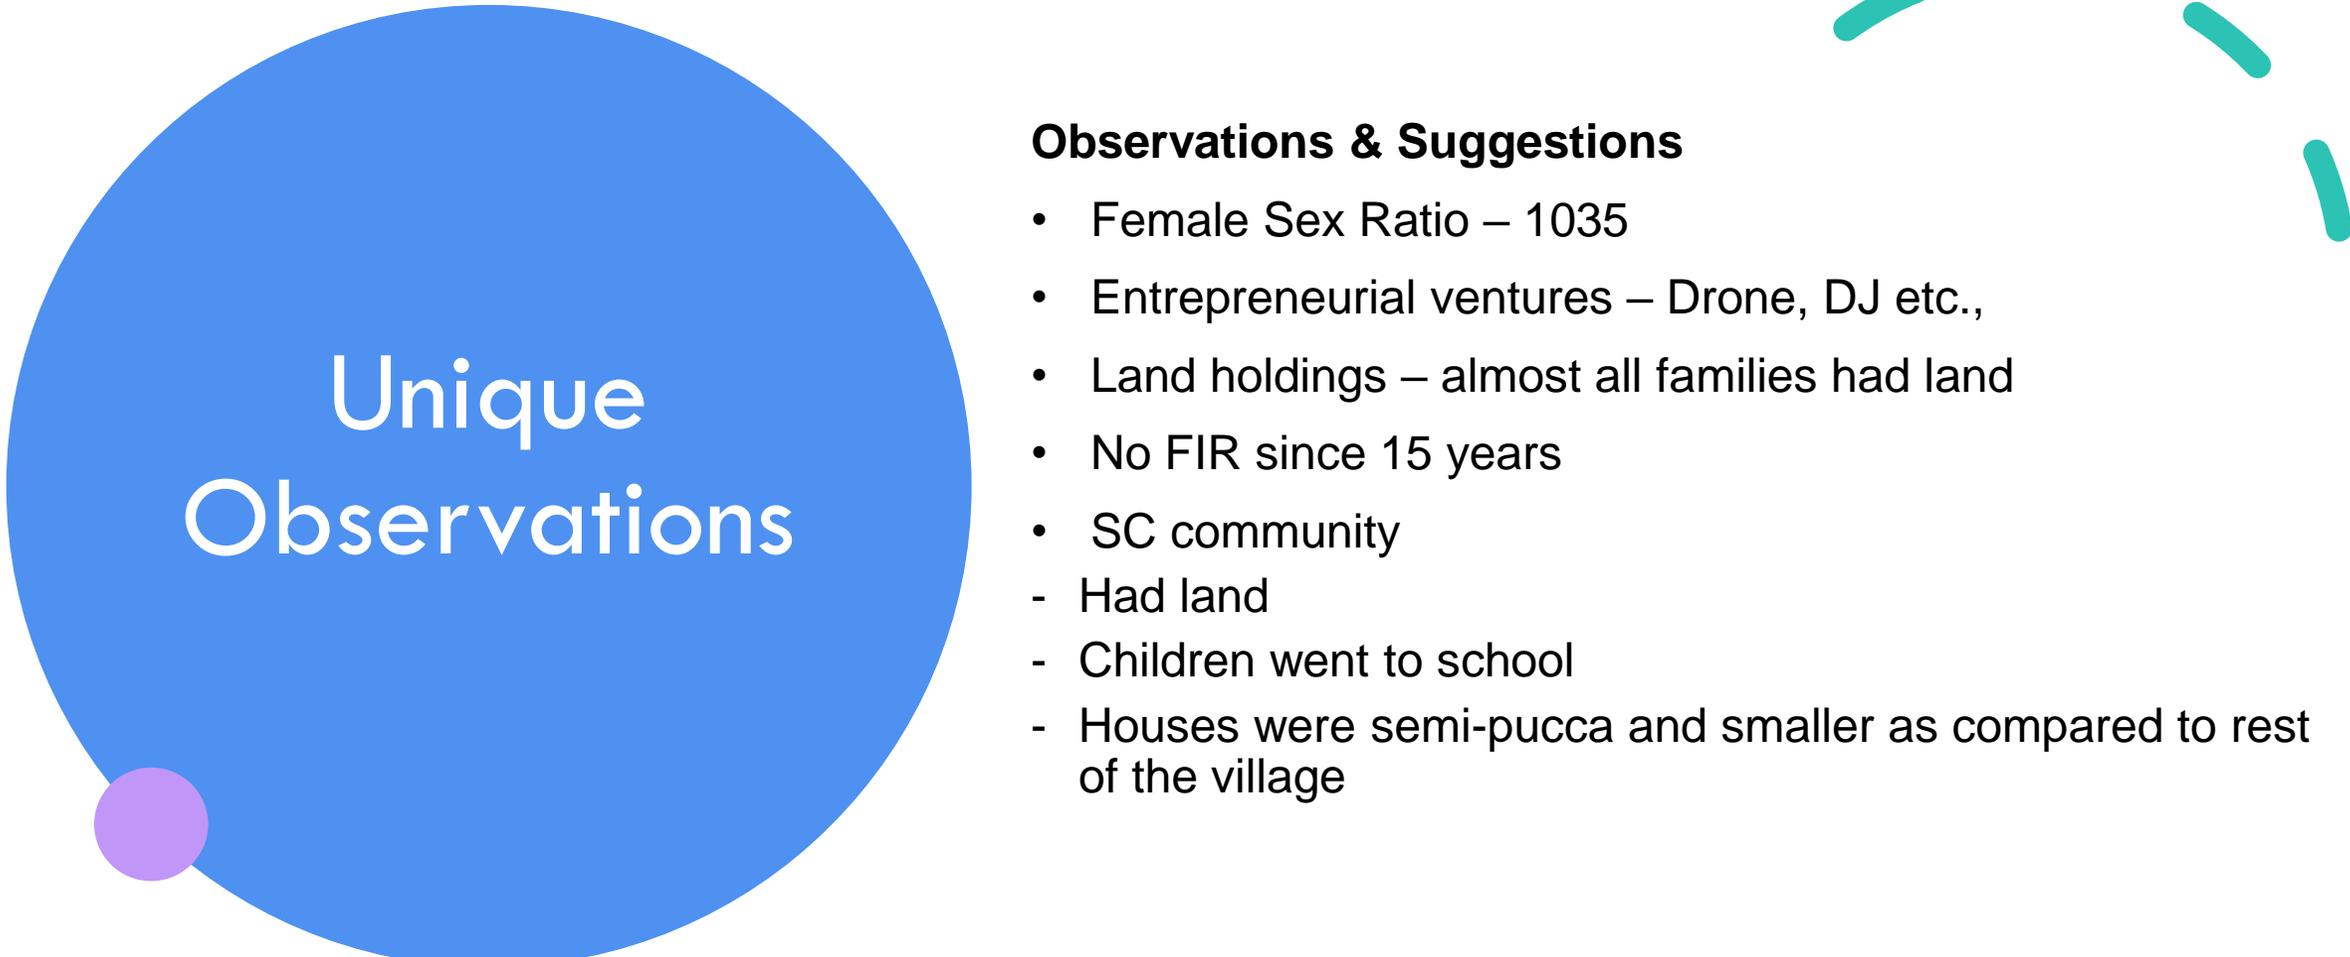

Unique Observations

Observations & Suggestions

- Female Sex Ratio – 1035

- Entrepreneurial ventures – Drone, DJ etc.,

- Land holdings – almost all families had land

- No FIR since 15 years

- SC community

- Had land

- Children went to school

- Houses were semi-pucca and smaller as compared to rest of the village
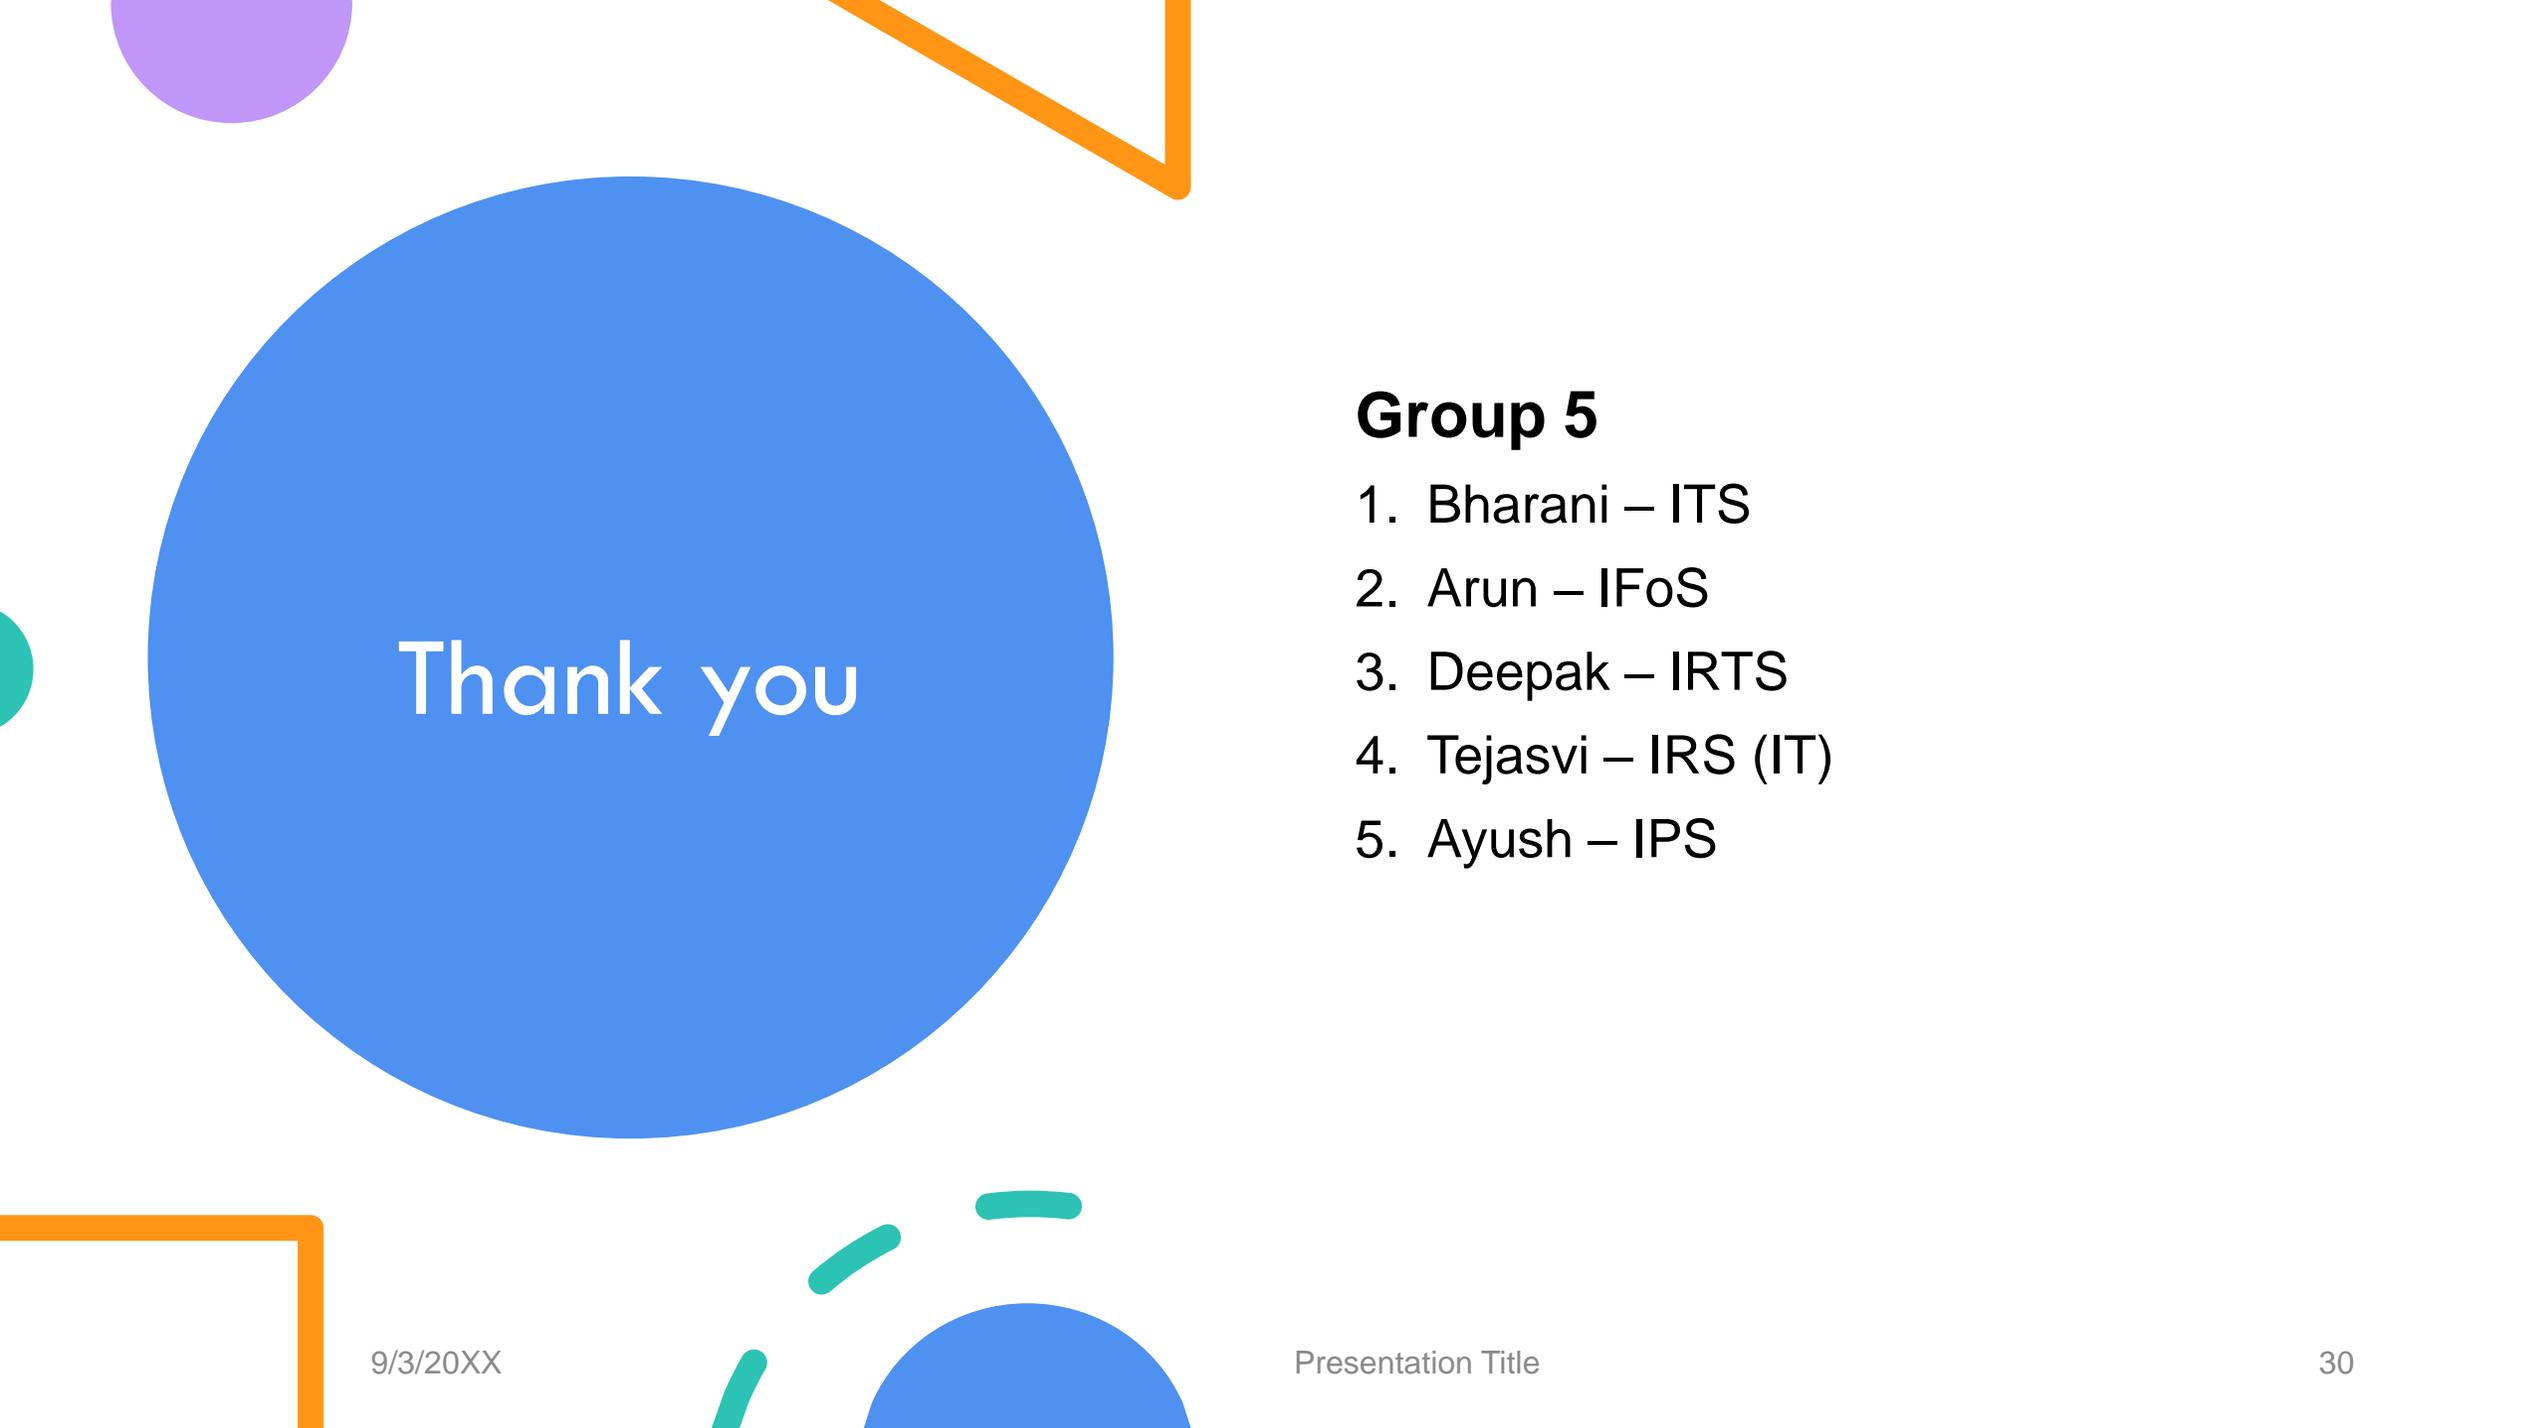

Thank you
