Conclusion

- Domination of one family and monopoly over resources needs to be checked.
- Responsibility needs to be fixed on Panchayat and Gram Sevak for absence of sanitation staff from work.
- A canal needs to be built so that water can be made available to Kuntur and other nearby villages in case of drought like situation as this year.
- School needs upgrade and number of teachers needs to be increased.
- New employment generation schemes need to be initiated, utilising the unique tri-junction location of the village.
- Awareness among people regarding government schemes needs to be increased, especially among BPL families.

Thank You.
